No.17 North First Avenue Trans Ekulu Enugu, Enugu State, Nigeria.

OBJECTIVE

I seek challenging opportunities where I can fully use my skills, knowledge and experience for the success of the organization. I intend to join a strong team that I can add value to, a team that I can produce a positive return on investment for, while they aid my career growth.

EXPERIENCE

05 February
2018 - 27
December
218

EGM Hub
Manager

I was in charge of staff recruitment and training, which was achieved by employing people with the right skill set for the positions required, this led to my branch meeting our targets constantly.

I was charged with aiding and overseeing sales...which saw the branch smash the company sales and profits records.

I nursed our customer services/relationships that converted majority of our one time customers to become loyal customers in my branch.

I was charged with brand market penetration projects and establishing the companies online presence...I handled this so well that 40% of our sales now came from online sales which was non-existing before the project.

I conducted a market survey and research which led the company to bring in gadgets for sales, which pushed our sales and profit figures to grow over 45%.

Tizza Bureau de change
Compliance Officer

I was charged with transportation of our Daily dollar bids from CBN point of payment to the companies Customers (end-users) while doing this I have been to polish our customer relations leading to our customers now moving our business transactions from post-paid to prepaid.

I was charged with our corresponding sales and audit reports between the CBN and our company, which I overhauled with the new Microsoft Office packages to push our reports from manual to semi-automated and in turn this led my company to be recognised by ABCON for our exemplary methods of reporting and sales transparency. This also saved the company 15% of our monthly office operation budget.

I was also charged with planning the quarterly budget for my department in the company. In which I have been able to seek quality alternatives of office utilities and I renegotiated our terms with our other company's utility suppliers to achieve up to 40% expense reduction.
